

Nature Alliance Family Day Care Service

Philosophy

Philosophy

We believe that all children have the right to feel safe, secure and supported at all times. We support this by creating nurturing environments where children are protected, respected and valued, fostering trusting relationships, promoting child safe practices, and working collaboratively with families and Educators to ensure every child experiences a strong sense of safety, belonging and wellbeing.

We believe that children are capable and competent and have the ability to lead their own learning. We trust children's instincts and their ability to make choices, learn from experience and become confident individuals. We support Educators in developing high quality nature-based environments where children's learning, wellbeing and involvement are promoted, empowering them to thrive and develop to their full potential.

We believe in holistic sustainability. We support and empower Educators in creating opportunities for children to connect with nature. We actively promote sustainable practices within the service with the intention of all children understanding how we can minimise our carbon footprint and the impact we have on the environment.

We believe in natural learning environments. We support Educators in creating opportunities for children to connect with nature within their high quality, nature-based home environments and on regular excursions to natural spaces. We encourage developmentally appropriate risky play opportunities, enabling children to challenge themselves, while developing perseverance, resilience, and high self-esteem.

We believe in respectful relationships and creating a culture of kindness where nurturing the wellbeing of all individuals is paramount.

We believe in skilled, professional Educators. Educators are encouraged to access regular professional development opportunities, to be aware of current research and best practice with a shared focus on quality outcomes for children and continuous improvement.

We believe in valuing the roles of parents, families and the community. We respectfully acknowledge, support and celebrate the equity, inclusion and diversity within all cultures and actively promote Australian Aboriginal and Torres Strait Islander perspectives.

Vision

To cement our place in the community as a professional, high-quality service with an excellent reputation as one of the leaders in the Early Childhood Education and Care sector.

Mission

To support Educators in building a successful, financially secure business while providing an environment that promotes children as capable and competent individuals where learning and the rights of the child are central to the program.
